Bilateral Meetings

- Day 2

Description

HAPTIC R&D CONSULTING, headquartered in Aricestii Rahtivani, Prahova (ROMANIA), is a consulting of global technology and engineering company providing innovative solutions for customers in industrial, commercial, and residential markets.

Smart technology for agriculture

Haptic Meteo Station is a high-tech product that is designed for computer diagnostics and use in intensive agricultural production.

The purpose of Haptic Solar Meteo station is collecting, processing and displaying the meteorological data, providing timely information about starting, duration and intensity of attacks of certain plant diseases or pests.

With the parameters that are collected by the station it is possible to precisely determine the right time for plant protection treatment.
